## Objective:

Create a drawing of a motorcycle that represents you and your personality

## Steps:

1. Answer the question “*Who created the first motorcycle?*” in your sketchbook
2. Find three different motorcycles from three different time periods. Make a small sketch of each style on one page in your sketchbook. Be sure include the date of the motorcycles creation. Note how the design of the motorcycle has changed or not changed over time.
3. Answer the following questions: *What colors, shapes and forms express you and your style and personality? What will you do and where would you go on your motorcycle?*
4. Brainstorm and sketch ideas for your **invented** motorcycle that incorporates the answers to these questions. It does not have to be a typical or traditional motorcycle. Have fun dreaming up a new style and idea for a motorcycle.
